Subject: FW: AK Steel

Katie – FYI. I didn't see any further email traffic about releasing the preliminary data after Eileen's response yesterday afternoon. I recommend elevating to Ed Nam since Bob Hodanbosi is copied and involved.

Good Morning George,

Here is the updated Middletown spreadsheet to reflect the sampling results that we received yesterday from Hamilton county Division of Environmental Services. I am also attaching copies of the laboratory data sheets.

Ohio EPA is still waiting for U.S. EPA to respond to our request for copies of U.S. EPA's air monitoring data for the Middletown sampling that was conducted last month. Let me know if you have any information or questions.

Thanks,

Diane B. McClure

Hi George,

Thanks again for your previous message regarding A.K. Steel. Attached is a spreadsheet summary of the data that Ohio EPA received from Hamilton County Division of Environmental Services. I also understand that U.S.EPA Region 5 collected 24hr VOC canister samples on two separate occasions. If you receive information regarding U.S.EPA's canister results, please share at your earliest convenience. Have a great weekend.
